① ✓ ANDRAS ZAKO

On July 10, 1964, a source with whom contact has been insufficient to establish his reliability, but who was formerly an officer in the Royal Canadian Calvary, and who is currently a professor of foreign languages at a Southern University, advised he recently received a letter postmarked Vienna, Austria, from Professor Edmund Malnasi, bearing return address of Wien 40, Postfach 347. The letter was ~~mis~~graphed and written in the Hungarian language.

The source translated the letter which transcription is set forth as follows:

"Dear Odon,

"In connection with your case I would like to bring to your attention the fact that it was Zako's duty to attack you. Namely Zako is not only working for the CIA, but for 15 years he is taking good care that those who are being sent to Budapest to 'work' never return from there and receive the rope, because this way his victims can not find out that beside the organization fee he also stole from his former victims the traveling expenses. He is working both ways, he is in cahoots with Budapest, too. That's where he received the order from, to attack you, and if he hadn't done this, through his agents in Vienna, he would have been exposed from here to his CIA boss in Munich.

"Such change can never come here which could make his return here possible. Namely the families of more than hundred victims will help him right away to the end of a rope in case an unexpected political change should occur here.

Source stated that in his opinion, based on the text of the letter, Zako is used by Central Intelligence Agency (CIA) to get other Hungarians to go into Hungary to act as Agents and that these Agents are subsequently caught as a result of Zako furnishing the authorities in Hungary with the identity of the Agents.

Source further advised that Professor Edmund Malnasi is a very famous scientist in sociology in Vienna, Austria, and is currently working on a plan known as the "Malnasi Plan" which according to the source he, Malnasi, has presented to the United States Department of State. According to the source this plan is to establish a united states of the Baltic and Slavic countries to act as a "buffer zone" between Europe and Russia and the constitution for these countries will be similar to the constitution of the United States of America.

Source advised he assumes since the above described letter was mimeographed, other individuals in the United States probably received this letter from Malnasi. However, he stated he has not heard of anyone else receiving this letter.
